

-AR Verb Conjugation Cut and Paste

These pages give children practice matching subject pronouns to the correct - ar verb form.

Instructions:

- 1) With color pencils, color the pronoun and verb form the same color. (This step is optional)
- 2) Cut out the pronouns and glue the left edge of the rectangle over the correct verb form to create a lift-up flap.
- 3) Practice saying the pronouns and verbs together by reading the pronoun and then lifting up the flap and reading the verb.

Notes:

- The *vosotros* form is not included on the pages.
- There is a final sheet in the pdf with additional subject pronouns, nouns, and blank tabs.
- The additional pronouns include *usted*, *ustedes*, *ellas* and *nosotras*. You may want to have students add these pronouns to the verb pages by writing the verb form again and using the additional pronouns from the sheet. They can also use these pronouns in place of a pronoun with the same verb form.
- You may want to have students use nouns as subjects. They can write additional nouns into the blank tabs.
- Use the completed verb conjugation page as support for answering oral questions or as support for a writing task.
- The pages can be added to an interactive notebook.
