

Print spinner on card stock. Cut it out.

Easy spinner: Place a paper clip lying flat in the center of the spinner. Place a pencil point inside the paper clip at the center of the spinner. Push the end of the paper clip so it rests behind the pencil point and spin. The paper clip spins around the pencil tip.

Arrow spinner: Cut an arrow from a plastic lid or card stock. Put a hole in the center of the spinner and in the base of the arrow. Attach the arrow to the spinner with a metal brad. Bend the arrow up slightly so it spins freely.
