

Welcome to Global Learning!

Hello! My name is Becky Morales, and I am the founder of **KidWorldCitizen.org**, where I share activities to help young minds “go global.” In addition to teaching ESL and the Spanish language, I am the author of ***The Global Education Toolkit for Elementary Learners***—a massive collection of practical, effective, and fun activities to advance the global awareness of K-6 students.

Through my website, my book, and **my TpT store**, I share hundreds of activities and ideas that encourage global learning, cultural awareness, and world languages. I specialize in ready-to-use activities and projects that will help students thrive in our interconnected world as they develop creativity, compassion, intercultural communication skills, and global citizenship.

Please check out my other products at the **Kid World Citizen TpT store!**

I greatly encourage you to leave your feedback, and hope you will spread the word to your friends and colleagues! Also join me on **facebook**, **pinterest**, **instagram**, and **twitter**, where I share hundreds of ideas.

Most of my products focus on:

- ★ Multicultural Literature and Communication Skills
 - ★ Science, especially environmental/natural
 - ★ World Languages, especially Spanish and ESL
 - ★ Social Studies and Geography

Happy teaching and exploring the world!

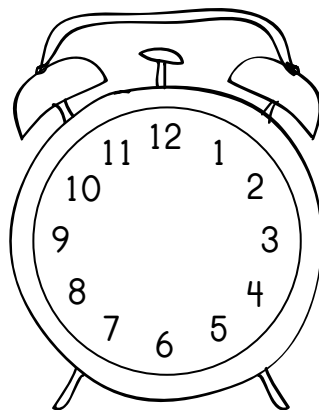

Thanks!

Becky Morales
